**KINROSS GOLD CORPORATION
TO MAKE STRATEGIC INVESTMENT
IN BCGOLD CORP.**

Vancouver, British Columbia – April 29, 2008 - BCGold Corp. (“BCGold” or the “Company”) is pleased to announce that Kinross Gold Corporation (“Kinross”), the third largest gold mining company in North America, has agreed to make a strategic investment in BCGold.

BCGold holds a number of quality early and advanced-stage gold exploration properties in British Columbia, including the former high-grade gold producer, Engineer Mine property. In 2007, BCGold spent \$2 million on exploration in British Columbia and is planning a similar level of expenditure in British Columbia for 2008.

Under the terms of the investment, Kinross, by way of private placement, has agreed to purchase 3,000,000 common shares of BCGold at a price of \$0.35 per share, for total proceeds of \$1,050,000, subject to approval by the TSX Venture Exchange (“TSXV”). This equates to a 12.8% equity position in the Company. Shares will be pooled with an escrow agent and released in four equal allotments on a quarterly basis, commencing 15 months from the date of issue. A 6% cash finder’s fee is payable to an independent financial management and investment advisory company.

Kinross will have the right to participate in future financings of BCGold to maintain its then equity interest in the Company at up to 10%, subject to TSXV approval and subject to maintaining a minimum 5% equity interest in the Company. BCGold will use the proceeds of this investment from Kinross to offset general operating costs and generative exploration and direct project costs in British Columbia.

“This is a huge vote of confidence in BCGold’s exploration land holdings, strategy and management”, states Brian P. Fowler, P.Geo., President and Chief Executive Officer of BCGold. “We look forward to a long and productive working relationship with Kinross. As a preferred partner for BCGold, Kinross will be provided preferential consideration by way of option or joint venture agreement to assist BCGold in advancing the Company’s gold exploration projects.”
