

For Immediate Release

**BCGOLD CORP. CONSOLIDATES AND EXPANDS
ENGINEER GOLD MINE PROPERTY**

Vancouver, British Columbia, August 19, 2013 (TSX-V:BCG) – BCGold Corp. (“BCGold” or the “Company”) is pleased to announce that it has signed a letter agreement with Blind Creek Resources Ltd. (“Blind Creek”) to option nine mineral claims (the “Claims”) bordering the Company’s historic Engineer Mine and Gold Hill properties on Tagish Lake, 32 km west of Atlin, British Columbia.

Several high-grade gold veins and broad, gold-bearing shear structures previously defined by BCGold on the Engineer Mine and Gold Hill properties are known to extend onto the Claims. This agreement consolidates BCGold’s Engineer Mine area land position into one contiguous claim block that now covers the entire Engineer Mine gold and silver mineralizing system and totals 3,537 ha in area. This provides for a much more systematic exploration and development approach by the Company.

The agreement, subject to TSX Venture Exchange approval, provides BCGold with the option to earn a 100% interest in the Claims over four years through the issuance of 1.25 million BCGold common shares, staged cash payments of \$225,000, and incurrence of \$400,000 in exploration work expenditures. Blind Creek retains a 2% net smelter return on the Claims, which can be reduced to 0.5% by BCGold for a price of \$1.5 million.

“BCGold is very pleased to finalize this agreement,” states Brian P. Fowler, P.Geo., President and CEO of BCGold. “It was a long time coming and it exemplifies BCGold’s commitment to gold exploration and development in the Engineer Mine gold camp. We are pleased that through this agreement we can expose BCGold shareholders to renewed and enhanced prospects of exploration discovery and near-term mine development.”

About BCGold

BCGold is focused on exploration and development of its historic Engineer Mine property package situated in northwestern British Columbia. Since 2007 the Company has incurred more than \$4.0 million in expenditures to demonstrate the exploration upside and near-term mining potential of the property. BCGold is unique in that it exposes investors to the prospect of discoveries while being positioned to offset exploration costs by monetizing / forward-selling gold concentrate recovered from on-site processing of high-grade gold bulk samples at Engineer Mine.

BCGold has generated 27 early to mid-stage gold and copper-gold properties in British Columbia and Yukon that it will continue to advance through sourcing preferred joint venture partners.

On behalf of the Board of Directors,

Brian P. Fowler, P. Geo.
President & CEO
